

Tri-Built Custom Homes Honored As A 2009 Summit Award Winner

Once again Tri-Built Custom Homes, LLC has been named by the Greater San Antonio Builders Association as a Summit Award Winner! This time the coveted award was for Best Rural Product Design of a one-of-a-kind home in the \$500,000 to \$625,000 range. The home, located in Mountain Springs Ranch, is a beautiful vacation home for a Colorado family and is also Tri-Built's Model Home. This top award is one of several honors given once a year by the association.

Tri-Built's quality craftsmanship and ability to build effective working relationships with their clients translates into homes that are exceptional in every way. Tri-Built is honored to receive this award and will continue to use their expertise to create custom homes that exceed customer expectations and gain recognition for excellence.

Co-Owners Mike Coan and Jason Gallas have worked extremely hard for the past six years to achieve such a high quality level of craftsmanship and look forward to future opportunities to achieve more award-winning work. In today's world of construction it is vital that a consumer choose a quality, reputable, honest home builder that has a proven track record of knowing their trade, and who has built quality relationships with their craftsmen.

The designer for the custom home that won the Summit Award is Kim Mockert of K&M Designs. Tri-Built appreciates the dedication and innovation that she brings to every home she has designed for their customers.

Tri-Built would also like to take this opportunity to thank their past and current clients and to encourage future clients to provide us with the privilege of building their homes. By using modern construction methods coupled with old-world craftsmanship, Tri-Built aspires to be the best new generation of luxury home builders.
